Wake Up Lyrics
It's no rules no parameters
Started off in high school was a amateur
Copping shit you can't move built the stamina
I told my youth make moves don't let em' stand witha'
Checks blank 100 K or more?
Lets make a bank tour
Whatever you seen I seen more
Plenty beef your heat freeze I squeezed off
Phantom Hard top but the seats soft
My man up looking down on me like a seesaw
I don't know what happend before but times is rough
I need enough to make my feet warm
"I woke up to some haze holding my pen steady
They say the Lord on his way tell him I been ready
As I inhale to the song
It's Obvious that where I'm from was hell all along
"I heard enough like enough is enough
I see a lot of rappers coming from under that bus
No matter what they aint fucking with us
Every Line is a uppercut plus one to the gut
Ask
Bishop I had the best Juice
Can't be cool with em n***** only respect shoot
Check scams credit cards we did it
Build a plan my advance gon get all the equipment
The streets talking I always will listen
Always think on the money so I'm Paying attention
They Like man that kid glow
In a peptomol color gran turismo
After me there is no That could? head crack leave with his dough
That make them sick to they stomachs
Throwing up on this shit cause I don't spit I vomit
Heavy grip four fifth lift if you want it
Every trip whole clique even N***** with warrants
I'm like Nino I see money
The world is mine there's really no need for G money
Your girl is mine you eating but see your team hungry
That's word to mine them fingers can't take a thing from me
