

Me and You

Jake Miller

Me and you
Yea, we're gonna burn this city down
We're the only ones that'll make it out
Me and you
Yea, it don't matter where we go
We'll leave behind all that we know
Me and you
Yea, we're gonna burn this city down
We're the only ones that'll make it out
Me and you
Yea, it don't matter where we go
We'll leave behind all that we know
Just me and you (Just me and you)
Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now
Just me and you (Just me and you)
Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now
Listen up girl, I could be your getaway
Loosen up girl, I can take the pain away
So tonight baby we can throw the drinks as up this night
Shit, it's time for a send away
Let's shake this city like an earthquake
I'll stand by you until my legs break
Going city down, we can ride around top
Then tell me how is that for a first date?
'Cause I've been up for days
Thinkin' bout escaping now
We can have it made
Fuck this place, we're breaking out
So peace out cuz we gone
Girl I know you're nervous
But we can take em on
Us against them, the whole world versus...
Me and you
Yea, we're gonna burn this city down
We're the only ones that'll make it out
Me and you
Yea, it don't matter where we go
We'll leave behind all that we know
Just me and you (Just me and you)
Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now
Just me and you (Just me and you)

Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now
Bonnie & Clyde, like Bonnie & Clyde
Like Batman & Robin, I'll catch you when you're fallin'
Baby say the word, I can run up when you callin'
I'll put you back like it's our, if you sink baby I can be your power
We're like Harold & Kumar One day I'mma make you a queen, put you in a White Castle
Baby I've been up for days
Thinkin' bout escaping now
We can have it made
Fuck this place, we're breaking out
So peace out 'cause we gone
Girl I know you're nervous But we can take em on
Us against them, the whole world versus...
Me and you
Yea, we're gonna burn this city down We're the only ones that'll make it out
Me and you
Yea, it don't matter where we go We'll leave behind all that we know
Just me and you (Just me and you)
Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now
Just me and you (Just me and you) Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now
...Us against them, the whole world versus
Us against them, the whole world versus
Me and you
Yea, we're gonna burn this city down
We're the only ones that'll make it out
Me and you
Yea, it don't matter where we go
We'll leave behind all that we know
Me and you
Yea, we're gonna burn this city down
We're the only ones that'll make it out
Me and you
Yea, it don't matter where we go
We'll leave behind all that we know
Just me and you (Just me and you)
Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now
Just me and you (Just me and you)
Just me and you (Just me and you)
Just me and you
Just don't know what we're doing now

Me and you. .
