

# Last One Goes the Hope

## Gogol Bordello

Unvisible barbed wire all along  
Around the neck of my song  
Hey Romale, I'm beat up  
But going strong Unstoppable fire of my tongue  
And the path ahead that's long  
Will get me at the end where I belong Cause I've seen ship of fools  
Sinking in the dunes  
As I dragged my coffin on the rope  
Them all look down at me  
But I got all the help I need  
Cause the last one, last one goes the hope  
Last one, last one goes the hope  
Unseizable diamond from my sling  
Still is searching for it's ring  
In a city of ruins where no-one sings  
But zombies and willful slaves  
Living in their tiny private caves  
Crooked hands, digging up their graves Yeah I've seen ship of fools  
Sinking in the dunes  
As I dragged my coffin on the rope  
Them all look down at me  
But I got all the help I need  
Cause the last one, last one goes the hope  
Last one, last one goes the hope Dee dee dee...  
Last one, last one goes the hope  
Last one, last one goes the hope  
He romale, no pasarán  
Hey chavale, non rien de rien  
You see the thunderbird already starts to spin  
He romale, no pasarán  
He chavale, non rien de rien  
Hey, venceremos,  
ñã ðãâî ù ñãääè! Cause I've seen ship of fools  
Sinking in the dunes  
As I dragged my coffin on the rope  
Them all look down at me  
But I got all the help I need  
Cause the last one, last one goes the hope  
Ooh, last one, last one goes the hope  
Ooh, last one, last one goes the hope  
Ooh, last one, last one goes the hope Dee dee dee...  
Ai ai ai...

Last one, last one goes the hope (ai goes the hope! )  
Last one, last one goes the hope  
Last one, last one goes the hope (ai goes the hope! )  
Ooh, last one, last one goes the hope
