

Numb (feat. GRAACE)

Hayden James

[Verse 1]

Don't come any closer
I've seen how this all works
So when you tell me lies
Look me in the eyes first
I'm just trying to protect my heart
Showed you every single scar
Say "It's you not me"

'Cause that's my favourite part[Pre-Chorus]

Why does it hurt so much
With every single touch, we thought this was love
Why do I want to stay numb
I want to be alone, I just don't know how
Why does it hurt so much
With every single touch, we thought this was love
Why do I want to stay numb

[Chorus]

Love me in the morning anyways
If I'm never lonely, I won't ever feel the pain
Love me in the morning anyways, anyways
Love me in the morning anyways
If I'm never lonely, I won't ever feel the pain
Love me in the morning anyways, anyways[Verse 2]

I saw it in your eyes
Baby blue, like a sky
And all these puzzled games you played
Fucking with my mind you would never stay
I saw it coming soon
'Cause when you looked at me she would look at you
Say "It's you not me"
'Cause that's my favourite part

[Pre-Chorus]

Why does it hurt so much
With every single touch, we thought this was love
Why do I want to stay numb
I want to be alone, I just don't know how
Why does it hurt so much
With every single touch, we thought this was love
Why do I want to stay numb[Chorus]

Love me in the morning anyways
If I'm never lonely, I won't ever feel the pain
Love me in the morning anyways, anyways

Love me in the morning anyways
If I'm never lonely, I won't ever feel the pain
Love me in the morning anyways, anyways[Bridge]
I want to be alone, I just don't know how
All of these games you play
I want to be alone, I just don't know how
Fucking with my mind you would never stay
I want to be alone, I just don't know how
All of these games you play[Chorus]
Love me in the morning anyways
If I'm never lonely, I won't ever feel the pain
Love me in the morning anyways, anyways
Love me in the morning anyways
If I'm never lonely, I won't ever feel the pain
Love me in the morning anyways, anyways
