Tech N9ne

(feat. Big Krizz Kaliko)The only real place to be
Middle of all controversy
West end of the Mississippi
Welcome to the MidwestPistol packin and money mackin
Rappin about the city where killas keep it crackin too dark
And gritty back in the dizzy jackin was happenin Gafflin many
Cacklin now we packaging crack and the addict will pop
Kansas City Missouri feel the fury of the inner city
Poverty stricken, novelty spittin, follow me
Quick into the bottom we gotta be thizzin no frikin apology given
You trippin we lick a shot
Get ready to brawl hometown
Breakin a jawbone, clown
You aint a criminal killa be ready to get up and fall on down
Look at the dark side full of the gangbangin hookers with choppers
And the choppers they keep the thangs rangin
You aint gotta be killa gangsta to know that you can die tryna hide sides
Thangs fo the dough, after the club get to skippin
Cause they trippin off in the mo
It doesn't matter where you go
Where you've been
Beautiful foreign lands you been in
Gun play rains
Summer and shine
Stay inside, you should be fine
I'll show you, follow me
Wecome to the MidwestIt's a city where anybody can cause you bodily harm
When you walk on my city hardly armed
And hardly safe to show ya face apes will erase you with lethal blades, blaze ya fo the paypa
Nowhere to hide on either side of the wild the gucci the prada Krizz
And the millimeter follow'll holla we scream won't get you a thing
So get you a thang load it up with hollow ones
Light it up like a hallogen
Look at the crime rate, no wonder why I hate
Niggas keepin they people I'm seekin em when you leavin em people the at bay
They'll take em away if it aint the day
Hurry get your people outta the cage
The Midwest is more than just a lil chaotic
And if we aint got it we plottin of robbin em for they chips
That'll be the nature of the beast to keep the peace

I keeps my peace when I'm in the Midwest
 It doesn't matter where you go
 Where you've been
 Beautiful foreign lands you been in
 Gun play rains
 Summer and shine
 Stay inside, you should be fine
 I'll show you, follow me
