

# Washed in the Mud (feat. Randy Houser)

Colt Ford

I made a pit stop at the corner station  
In my shiny new rig where the boys were waiting  
Got it all gassed up and the beer rise down  
Drove 35 miles outside of town Where the groundhogs run long after the rain  
We can slip, slide, and run this thing  
Get it all dirty, break it and ride  
Round here trucks get baptized Washed, washed in the mud  
We get it all jacked up, sink it to the struts  
Show it some hillbilly love  
Gonna get washed, washed in the mud  
Yeah, we rolling like Rambo, covered in cammo  
My truck's being born again  
Can I get a amen?  
It was well worth every single dollar  
'Cause it makes the country girls yell, scream and holler  
Got a heavy duty wince that'll pull you from a ditch  
And set of bull nuts hangin' off a ball hitch Tools, wipers thumping in time  
A sweet little honey sitting by my side  
Throw it in low, put it to the test  
Come on baby, can I get a witness Washed, washed in the mud  
We get it all jacked up, sink it to the struts  
Show it some hillbilly love  
Gonna get washed, washed in the mud  
Yeah, we rolling like Rambo, covered in cammo  
My truck's being born again  
Can I get a amen?  
Brothers and sisters, we're all gathered here today  
To celebrate that country life that we all love so much  
Now we may not have fancy things and all that glitters ain't gold  
But them old trucks out there in the parking lot are just like Jesus  
Their good for country folks soul Washed, washed in the mud  
We get it all jacked up, sink it to the struts  
Show it some hillbilly love  
Gonna get washed, washed in the mud  
Yeah, we rolling like Rambo, covered in cammo  
My truck's being born again  
Can I get a amen? Amen Washed in the mud, washed in the mud, washed in the mud  
Can I get a amen?
