

# Some Kind of Beautiful (feat. Lindsey Stirling)

Tyler Ward

Gotta take a chance running after somebody  
Gotta take a chance running after somebody  
Gotta take a chance running after somebody  
Gotta take a chance running after somebody Driving home in the rain  
Seven miles from lover's lane  
Got her taste on my lips  
Still feel her on my fingertips  
And now she makes me feel  
Like I'll never be alone again  
Cause I've never had love like this Her eyes, that smile  
Can make the young boys stay awhile  
I took a picture with my memory  
So I can fall asleep  
With you next to me all the time  
She makes me feel like I'll never be alone again  
Cause I've never known love like this  
And you are some kind of beautiful  
(Gotta take a chance running after somebody)  
(Gotta take a chance running after somebody)  
And you are some kind of beautiful We're alone  
I am safe  
All my fears fades away  
I am home in your gaze  
Will you stay  
Will you stay  
And now she makes me feel like I'll never be alone again  
Cause I've never known love like this And you are some kind of beautiful  
(2x Gotta take a chance running after somebody)  
And you are some kind of beautiful  
I fall asleep with you next to me  
Memorize the sound of your heartbeat  
It's beating loud from this point of view  
I can't believe that you're near me  
You took all that I'm fearing  
And turned all my skies to blue And you are some kind of beautiful  
(Gotta take a chance running after somebody)  
(Gotta take a chance running after somebody)  
And you are some kind of beautiful Gotta take a chance running after somebody  
Gotta take a chance running after somebody  
Gotta take a chance running after somebody  
Gotta take a chance running after somebody
