

# What They Want

## Russ

Yeah, ooh, yeah  
They let us in the rap game I swear they let me in this motherfucking rap game  
Got a chick, I call her Lola  
She feel like the ocean  
Likes to drink and smoke some doja  
And I feel like smokin'  
Plus she good at charmin' cobras  
I feel like I'm chosen  
But she ain't the only one, no  
Got a chick, I call her Katia  
She be actin bougie  
The she came through  
And topped me off  
Now she just a groupie  
Got the aura of the mafia Her friends wish they knew me  
But they ain't the only ones, no no  
What they want, what they want, what they want? Dollar signs, yeah, I know its what they want  
What they want, what they want, what they want? Yall ain't foolin' me at all  
I been at this shit for 9 years,  
Now they startin' to call  
Im a DIY pioneer, they tryna get involved  
Yippee kiyay, aw yeah, 'bout to set it off  
I'm probably the only one, yeah  
Come correct when you approach me, I can size you up  
Takin all the shots like Kobe, almost 81  
Guess I gotta play the goalie  
And go and save me some  
I'm proabably the only one, yeah  
What they want, what they want, what they want?  
Dollar signs, yeah, I know its what they want  
What they want, what they want, what they want? Yall ain't foolin me at all Who wants my  
money, I'll tell you who I don't fuck with  
Who's pullin' strings, I'm just pointing out all the puppets  
What I'm demanding is fucking up all the budgets  
I'm smart as fuck, they be talkin like I'm the dumbest But I know what they want from me  
Dollars, lotta stock in me  
It ain't nothin personal  
It's business and I'm a commodity  
But honestly, Pop Pop would be turnin' in his grave  
The day I let someone else become the boss of me  
When there's a boss in me, I'll be damned  
What they want, what they want, what they want?

Dollar signs, yeah, I know its what they want  
What they want, what they want, what they want?  
Yall ain't foolin me at all
