

# That Makes Me

Chris Young

I like an old guitar  
Playin' a Gosdin song  
In a smoky bar  
That's what turns me on, yeah If that makes me a little old school  
Go ahead and call me yesterday's old fool  
If that makes me a little throwback  
Throw it at me, don't worry, I can take that  
Call me hick, hillbilly, hell I'm proud to be what that makes me  
I like a 60's truck  
The kind that's solid steel  
The kind that always runs  
It takes a man to turn that wheel If that makes me a little old school  
Go ahead and call me yesterday's old fool  
If that makes me a little throwback  
Throw it at me, don't worry, I can take that  
Call me hick, hillbilly, hell I'm proud to be what that makes me Yeah, I don't swear in front of  
no woman  
I answer yes sir to my old man  
I drink my liquor with a side of nothin'  
Yeah, good and country that's what I am  
If that makes me a little old school  
Go ahead and call me yesterday's old fool  
If that makes me a little throwback  
Throw it at me, don't worry, I can take that  
Call me hick, hillbilly, hell I'm proud to be what that makes me  
What that makes me
