

Came To Do (feat. Akon)

Chris Brown

It ain't nothing that make you want it
Get your tipsy, a little blunted
I pulled up in that S500
F*cked up, feeling all up on it You know what I came to do, you
You know what I came to do
You know what I came to do, you
You know what I You know what I came to do, you
You know what I came to do
You know what I came to do, you
You know what I came to do You know what I came to do, you
You know what I
You know what I came to do for you, girls
For all my ladies
For all my ladies Baby you're so damn beautiful
When I, I really like it?
I love your smile
And the way that you move
Baby you and I have a minute
Girl I promise I won't waste your time
Cause I know you're kinda busy
Physically all
I'm just tryna say, it's you caught my eye
I need you need love
I'm tryna give it
And if you don't trust me
I'll show you, I'm a man of my word, girl
And if you're ready for the world
I'll give it to you
I'm so in love like...
It ain't nothing that make you want it
Get your tipsy, a little blunted
I pulled up in the S500
F*cked up, feeling all up on it You know what I came to do, you
You know what I came to do
You know what I came to do, you
You know what I You know what I came to do, you
You know what I came to do
You know what I came to do, you
You know what I came to do You know what I came to do, you
You know what I
You know what I came to do for you, girls For all my ladies
For all my ladies

To all my ladies See I get what you want
And I get what you don't
I'm the man of the year
He's just the man of the morn
A hundred stacks in the trunk
She got a 100 packs in the donk
If he even tell you to f*ck with real n*ggas
Than I'm the type that you want
So I just stopped to get in money while these n*ggas need a loan
Why you fucking with these dummies, we need to be alone
Cause I'm wanting you baby
So what to do?
Cause I wanna change your life
Me and you You know what I came to do, you
You know what I came to do
You know what I came to do, you
You know what I
You know what I came to do, you
You know what I came to do
You know what I came to do, you
You know what I came to do
You know what I came to do, you
You know what I
You know what I came to do for you, girls
For all my ladies
For all my ladies
To all my ladies
