

All My Friends

Jacob Sartorius

All my friends are comin' over over
I wanna see all my friends
Chillin in the backyard doin' what we want tonight again
You know I wanna see you there
In your white jeans looking like a daydream that came to life
Everybody's on their way so what you waiting for
All my friends are comin' over
And we ain't stoppin' til the street lights are shutting down
So comon' and just sit with me girl for just a minute
It's gonna be a wild ride admit it
'Cause all my friends are comin over, over now
All my friends are comin' over
All my friends are comin' over
You know we're gonna live it up
We'll be nonstop rockin and we can't stop til we get enough
But I see you standin' across the room
Do you notice me like I notice you
Everybody's gettin crazy, what you waiting for
All my friends are comin over
And we ain't stoppin til the street lights are shutting down
So comon' and just sit with me girl for just a minute
It's gonna be a wild ride admit it
Cause all my friends are comin' over, over now
All my friends are comin' over
All my friends are comin' over
It's gonna be a wild ride admit it
It's gonna be a wild ride
All my friends are comin' over
And we ain't stoppin' til the street lights are shutting down
You're only young for so long, so bring it
We only got one life, let's live it
All my friends are comin over, over now
All my friends are comin' over
Hey hey hey
All my friends are comin' over, over now
