

# Where the Boat Leaves From

## Zac Brown Band

There's a place, where the boat leaves from  
It takes away all your big problems  
You got worries you can drop them in the blue ocean  
But you gotta get away to where the boat leaves from  
Take one part sand, and one part sea, one part shade of a big palm tree  
The drinks they're cold and the ladies are hot  
And I know this is the place for me So get away to where the boat leaves from  
It takes away all of your big problems  
You got worries you can drop them in the blue ocean  
But you gotta get away to where the boat leaves from See the problem is that you're down there  
And there's a perfectly good island somewhere  
Where a ride that floats and don't grab your coats  
You won't need them where we are going  
So get away to where the boat leaves from  
It takes away all of your big problems  
You got worries you can drop them in the blue ocean  
But you gotta get away to where the boat leaves from Pick me up  
Out on a boat that is huge  
Pick me up  
I don't know how to do  
Pick me up Put me down  
Down on the sand where its cool  
Put me down  
When I fall off my stool  
Put me down  
I'll just sleep there til morning comes around  
With sunshine and ladies and pina colodas  
and Bob Marley songs that are playing  
There's a sound in my ear that I want you to hear  
Soft tropical lips that are saying Get away to where the boat leaves from  
It takes away all of your big problems  
You got worries you can drop them in the blue ocean  
But you gotta get away to where the boat leaves from
