

# Collide

Jake Miller

We falling out of the sky  
I feel so alive  
my heart ignites  
when our eyes collide Ohh ohh oh yeahh collide  
Ohh ohh oh yeahh collide Don't hold back crash into me  
we catching fire like a 3rd degree  
need someone to hold sick of being alone  
so I'm rounding third and I'm coming home  
I need your touch and I need it now  
we can go to lunch and then mess around  
baby if you're in it you can come and get it  
we can build an empire in a New York minute  
me, him we stopping time all up stars in line  
this is what it feels like when we collide...  
When we collide  
When we collide  
When we collide I'm falling out of the sky  
I feel so alive  
my heart ignites  
when our eyes collide Ohh ohh oh yeahh collide  
Ohh ohh oh yeahh collide I'm gone hungover I'm love drunk and not sober  
this is do or die baby you and I we should get a little bit closer  
So baby come and hop up in my range, SWERVE!  
These other girls I kick em to the side, CURB  
your love rain down like a metor shower  
I'm crashing down on earth  
me and you stopping time  
all of the stars aligned  
this is what it feels like  
When we collide  
When we collide  
When we collide Ohhhhh oohhhh ohhhhh  
ohhhhh oohhhh ohhhhh  
ohhhhh oohhhh ohhhhh When we collide  
When we collide  
When we collide  
When we collide  
When we collide
