

# There's Nothing Better Than Love

## Luther Vandross

I fell asleep late last night  
And I dreamed that the night  
And almost half the day away  
I just got up so that  
I can hear her say  
She's still in love  
And no one can take her love away  
Ooh love wakes me up everyday  
And I thought no one  
Would ever make me feel this way  
It feels me up every time  
I hear her say  
She's still in love  
And no one could take her love away  
I wanna be loved  
There's nothing better than love  
What in the world  
Could you ever be thinking of  
It's better by far  
So let yourself reach for that star  
And go no matter how far  
To the one you love  
To love  
And I mean all these words I've said  
And you don't have to guess  
What's going on inside me head  
Just try to know  
All the things that our heart says  
Listen to love and always  
Get love to lead the way  
Whenever you love  
There's nothing better than love  
What in the world  
Could you ever be thinking of  
It's better by far  
So let yourself reach for that star  
And go no matter how far  
To the one you love  
To love  
You know for love I'd go anywhere  
(For love) I would go there  
(For love, for love) For love to the end of nowhere

And for your love  
(And for your love)  
I would, I would, I would love  
And I would love (would love)  
To just spend all my time  
With the girl who makes me  
Feel her love is mine  
Someone you see  
Who would only dream of me  
She'd be in love  
Just because she'd wanna be  
She'd wanna be loved  
There's nothing better than love  
What in the world  
Could you ever be thinking of  
It's better by far  
So let yourself reach for that star  
And go no matter how far  
To the one you love  
There's nothing better than love  
What in the world  
Could you ever be thinking of  
It's better by far  
So let yourself reach for that star  
And go no matter how far  
To the one you love  
There's nothing better than love  
What in the world  
Could you ever be thinking of  
It's better by far  
So let yourself reach for that star  
And go no matter how far  
To the one you love
