

80's Films

Jon Bellion

Just like the 80's films
We'll hook up in my back seat and let my best friend drive
Just like the 80's films
We'll hook up in my back seat and let my best friend drive
She said, "How does it feel to be
you?"
I said, "It's alright, I really think I peaked in high school."
She said, "That isn't possible, you are out of your mind
Cause we never hooked up in high school"
Yeah-uh
We just need a night like
Yeah-uh
We just need a night like this, yeah
Yeah-uh
Take me back to 9th grade
Yeah-uh
Take me back to 9th grade shit, yeah
Just like the 80's films
We'll hook up in my back seat and let my best friend drive
Just like the 80's films
We'll hook up in my back seat and let my best friend drive
She said, "How'd we end up in the
parking lot in Smithtown?"
The morning's on its way to sunrise
She said, "The island is long, but life is short in this town
I'm glad we got to redo the time."
Yeah-uh
We just need a night like
Yeah-uh
We just need a night like this, yeah
Yeah-uh
Take me back to 9th grade
Yeah-uh
Take me back to 9th grade shit, yeah
Yeah-uh
And just like the 80's films
We'll hook up in my back seat and let my best friend drive
Just like the 80's films
We'll hook up in my back seat and let my best friend drive
Just like the 80's films
We'll hook up in my back seat and let my best friend drive
I can't let go and your lips feel retro
You're my Breakfast Club
You're my song from Cyndi Lauper
No more missed times, we fly by street signs
Let your hips rewind
Take me back into the future, yeah
Just like the 80's films

We'll hook up in my back seat and let my best friend drive
Just like the 80's films

We'll hook up in my back seat and let my best friend drive
