

Hold On (feat. Cheat Codes)

MOGUAI

I'm ashamed by the lies
And the worthless games
But the wine and the night
Make me feel okay
No other you, no other me
No other us, babe One of a kind, and I won't let it slip away
I can see you in my head
I can see you in my bed
I can see you doing all the things we used to do instead
Of the fights at 2 am when I knew I was your man
The only thing I'm thinking about I really got to hold on Come back home, we can fight
I can take the blame
And I bet make up sex makes us feel okay
Give it back, give me love
Don't you run away Got a list, a couple of things
That will make you stay
I can see you in my head
I can see you in my bed
I can see you doing all the things we used to do instead
Of the fights at 2 am when I knew I was your man
The only thing I'm thinking about
I really got to hold on, hold on
I really got to hold on, hold on
I really got to hold on, hold on
I really got to hold on, hold on you
Hold on you
