

Hold You To It

Chris Young

Baby, do you feel that bass line pumpin'
Tell me, can you hear that kick drum thumpin' on the 2 and 4
Let's get on that floor
Love to hear the slide of the guitar ringin'
Melody's sayin' everything I'm thinking
And I'm startin' to think you think it too
I Love the way you're movin'
Feel the backbeat groovin'
I'm gonna hold you to it Damn, when you start to sway your hips
I start thinkin' about your lips
On mine and mine on them
And I love dancin' with you so much
I ask the DJ to turn it up
And keep playin' that song again and again
Yeah, I wanna hold you to it
