

Feel It (feat. Jocelyn Bowman)

GAWVI

All the stars, they fad away
Nothing left but endless space
All my senses hide to me
Time is fixed on you and me
Something here is happening
I can feel it in my veins
Electric infinity
Nobody's ever made me feel this way
So high up i can elevate
Honestly it's so insane
How you make me...
Oh I like the way, you make me feel it!
Oh I like the way, you make me feel it!
You, make me feel it!
You, make me feel it!
This is work in its domain
And usually I'm over rain
Finally found my saving grace
And that i never want to see you go away
Something here is happening
I can feel it in my veins
Electric Infinity
Nobody's ever made me feel this way
So high up i can elevate
Honestly it's so insane
How you make me...
Oh I like the way, you make me feel it!
Oh I like the way, you make me feel it!
You, make me feel it!
You, make me feel it!
When the skies get dark at night
I can hardly see my way (way)
I don't even need no daylight
You ignite a spark in me
Oh I like the way, you make me feel it!
Oh I like the way, you make me feel it!
You, make me feel it!
You, make me feel it!
