

I Got It (feat. Rick Ross)

Ashanti

Ohh, I got it, I got it Been a ten since it all began
Don't ask me why 'cause I got it
I work hard, yeah I put work in
He shine it up but I drive it
I ain't saying that I'm bragging babe
I just like to celebrate my accolades
Push it to the limit, like a big body benz
Push to the limit, push it
Push to the limit
I'm just saying how I feel about my life right now
My head so high and I can't come down
This is where I'm at and I'm on it, on it, on it
He feeling my persona trying to push up on it
Ohh Well, I'm ready able and capable
So come get it
What are you waiting for?
Cause I lit it, hit it, now watch it blow
When I finish with it, you'll see the smoke
Ohh, what I can give is almost perfect babe
I ain't got no worries, look into my face If you want it, I got it
That body on me, I got it
When you wake up, I got it
That ain't never leaving and I got it
Boy this body on lock and we can take it there
Anything that you think of, I got it right here
Take it to the edge, I got it
Throw it up if you got it
Put them bottles up if you got it
Keep spending that money like you got it
'Cause you may never get another night like this
So push it to the limit, if you about this life then live it
She knowing I'm the hottest, knowing I'm the biggest
Fuck being modest, I'm worth 50 million
Bricks on consignment, killed Carolina, bullet proof coupes
Silk shirts designer
She wanted cappuccino so I bought the Starbucks
2.4 that's off 2 notch roll
Nickels on the corner, Pickles in the salad
Pictures on the wall, Chickens in the attic
Choppa's in the phantom
Bezels on the watches
Hate in your heart, really you the target

They say I'm hard to kill, there's money on my head
(Let's make it work tonight)
Mastermind coming, still running from the fed, It's BOSS
If you want it, I got it
That body on me, I got it
When you wake up, I got it
That ain't never leaving and I got it
Boy this body on lock and we can take it there
Anything that you think of, I got it right here Take it to the edge, I got it
Throw it up if you got it
Put them bottles up if you got it
Keep spending that money like you got it
'Cause you may never get another night like this
So push it to the limit, if you about this life then live it If your on it, like I'm on it
Then come on it, we gon' flaunt it
I'm gonna stand on top of the globe
I don't think you're ready yet, boy this thing is drippin' wet
Tell me what your tryng to do?
I can have you floating higher than what you got in that cup
I can tear that thing up, I can tear that thing up
Got you creepin up behind, as your feeling up on mine
Usually I wouldn't give you none but fuck it, I'm on one Yeah, yeah, yeah yeah, yeah I got
it, I got it, I got it, I got it If you want it, I got it
That body on me, I got it
When you wake up, I got it
That ain't never leaving and I got it
Boy this body on lock and we can take it there
Anything that you think of, I got it right here Take it to the edge, I got it
Throw it up if you got it
Put them bottles up if you got it
Keep spending that money like you got it
'Cause you may never get another night like this
So push it to the limit, if you about this life then live it
