

Preacher Man

Canton Jones

Mr. Preacher man I don't want no trouble I just came to praise and worship with my brothers
Praying to the Lord and hoping he forgive us
I want God to save us don't want the streets to kill us
I'm like Mr. Preacher man I don't want no trouble
I just came to praise and worship with my brothers
Praying to the Lord and hoping he forgive us I want God to save don't want the streets to kill us
Im like Mr Preacher man please don't be alarmed
We just come to pray we don't mean no harm
I see how you looking of course we ain't perfect we figured if we come to see Jesus it would be
worth it
We live up the block and I know you seen us
Running from the cops all this senseless killing
We want it to stop
We want you to know Sir
If you dont let us sin we have no place to go Sir
Mr. Preacher man I don't want no trouble
I just came to PRAISE AND WORSHIP with my brothers
Praying to the Lord and hoping he forgive us
I want God to save just don't want the streets to kill us
I'm like Mr Preacher man I don't want no trouble worship came to praise and worship with my
brothers
Praying to the Lord and hoping he forgive us
I want God to save us don't want the streets to kill us
I'm like I'm the Preacher man
Bible in my hand
I'm so glad that you all came to church today my friend
And yes you all are welcome
As we seek his face
Here we like the organ
I know you like Bass
It's ok we love the same God
We may dress a little different
But love the same God
And our issues May be different but love the same God
We want you to know Sir that we well love you not judge you and want you to grow Sir
Mr Preacher man I don't want no trouble
I just came to praise and worship with my brothers.
Praying to the Lord and hoping he forgive us
I want God to save us don't want the streets to kill us
I'm like Mr. Preacher man I don't want no trouble
I just came to praise and worship with my brothers
Praying to the Lord and hoping he forgive us
