

You Like It

Omarion

You been showing me signs
You been blowing me kisses
You been trying to be mine
Girl, I'm down if you're with it
But you know I got a girl
And I know you got a man
But there's one thing you need to understand
I don't give a damn how he feels
You shouldn't give a damn about how she feels
'Cause you and me know what we got is real
So we should quit playing, and close the deal
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
So I'ma get what, I want
I ain't worried about nobody but you, girl
Come and get what you want
Ain't no need to fight it all
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
I like the way you comb your hair
I like those stylish clothes you wear
It's just the little things you do
That show how much you really care
my girl she been playing them games
And you been [?] a lane
We both be feeling the same
Fuck what she saying, fuck what he saying
swerving switching lanes
steppin right into the bank
countin that money we make
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
So I'ma get what, I want
I ain't worried about nobody but you, girl
Come and get what you want
Ain't no need to fight it all
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
I like the way you comb your hair
I like those stylish clothes you wear
It's just the little things you do
That show how much you really care

Even though you got you someone
And I got someone
I can give you more more
I can't stop thinking about you
Girl I want you
Tell me, am I wrong? wrong?
Girl, Cause I been hoping, I been praying, I been wishing
That you say you love me, are you loving this decision
Girl I want you like it, and I like it
Let's not wait no more no
So I'ma get what, I want
I ain't worried about nobody but you, girl
Come and get what you want
Ain't no need to fight it all
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
Girl I know that you like it you like it you like it
And you know that I like it I like it I like it
You know I like it
