

# Move It Up

## Cappella

Baby, I need you here with me  
Because I've tried to make you understand  
I want you, each move you make  
I realize you are the right one for me Move it up, come baby, move it up  
Come baby move it up  
Come baby move this rhythm  
Move it up, come baby, move it up  
Come baby move it up  
Come baby move this rhythm  
Ha, Ha, Ha, Ha, gonna move it up, gonna move it up  
Ha, Ha, Ha, Ha, gonna move it up, gonna move it up  
Ha, Ha, Ha, Ha, gonna move it up, gonna move it up Ha, Ha, Ha, Ha... Take the chance, now  
step this way  
Make the move, now seize the day  
For what you had is what you miss  
Hand in hand, you know you wish That's the way I feel  
The way I'm gonna be  
That's the way I feel  
That's the way I feel  
The way I'm gonna be  
That's the way I feel  
Move it on up, move it on up, move it up  
Move it on up, move it on up, move it up  
Move it to the rhythm - move it up  
Move it to the rhythm
