

# What We Started (feat. BullySongs)

Don Diablo, Steve Aoki & Lush & Simon

Remember when we were young  
Breakin' every rule they made  
I'll never change what we've done  
It made us who we are today  
I takin' every chance I get  
To make us who you won't forget  
Who we are, who we are This is what we started  
This is what we started  
They can't hold us down  
They'll never be, never be  
Never be, never be us  
This is what we started Remember we used to run  
To the corner of 69  
Yeah, they would come chasin' us  
We found a new place to hide  
Our makin' out plans to break out  
Give me your hand, and then  
They will know who we are This is what we started  
This is what we started  
They can't hold us down  
They'll never be, never be us  
Never be, never be us  
This is what we started  
It's everything that we ever wanted  
They won't hold us back  
They'll never be, never be us  
Never be, never be us This is what we started  
It's everything that we ever wanted
