

Small Town Big Time

Blake Shelton

Yea, Hollywood Boulevard
Looking down, seeing stars
90210, Rodeo is Rodeo
Glad I hit it, glad I did it and I'd do it again
Yea, and hang with my friends With them red Maserati's and them tuned up bodies
And everybody gonna be the next somebody
Yea, this place is a trip
Hey but meanwhile back in the stick Somebody's having a small town big time night
Somebody's rocking the main street with red tail lights
Somebody's cranking it up or falling in love
Or keeping the buzz sipping on a little moonlight
Yea, they know how to rock
Out in the boondocks
Cause believe me I've been there
Somebody's having a small town big time night, somewhere Yea, two lane town squares
Cotton queens, county fairs
With a water tank
Got 100 girls' names under the paint Glad I hit it, glad I did it and I'd do it again
Yea, I miss my friends With them pick'em up trucks and them dirt road ruts
And all them country girls get to strutting their stuff
East, west, north or south
Yea you better believe, [?] Somebody's having a small town big time night
Somebody's rocking the main street with red tail lights
Somebody's cranking it up or falling in love
Or lighting it up with a KFC spotlight
Yea, they all got the swerve
Down back in their hometown
I wish that I was there
Somebody's having a small town big time night, somewhere Somebody's having a small town
big time night
Somebody's rocking the main street with red tail lights
Somebody's cranking it up or falling in love
And twisting it up and dodging them blue lights Yea, they know how to kick it
Way out past the limits
Cause baby I've been there
Somebody's having a small town big time night, somewhere Yea, somebody's having a small
town big time night, somewhere
I wish that I was there
Yea, I wish that I was there
