

Just Us (feat. SZA)

DJ Khaled

We The Best Music
Another one
DJ Khaled Back against the wall, middle fingers in the air
Busting through the crowd, they gon' feel me now
Straight shooter from the hip, yeah, we heavy in here
Tell me get 'em then I got 'em (Get 'em)
99 problems, but you ain't one
Been so high lately I don't care who's goin' down
You could see it in my eyes, he's been hitting it right
Got me wishing that he wasn't
In the middle of the night
Will love show me what it feels like?
Fuck that, I let you pull up on me broad day light
Shots over here, fuck the other side
We don't gotta lay low, we grown
A field trip and I don't need no chaperone
I'm tryna get ghost
Ooh, oh, ooh, Oh ooh
It's just us against the world
In this life of sin
Ain't nobody gonna take us out
It's always us, never them
It's just us against the world
When the smoke clears
All we got is all we got
It's always us, never them It's lovely at the top, private destination
Sleeping by the rocks, only weed with us
This kinda love dangerous
When there's nothing else to lose
So don't make me wild out (Let's ride)
99 problems, what's one more?
50 feet get you touched at your front door
Leaving fast and we screening slow
Side eyes let me know that we visible
And I need it right now
Ten toes down, show me what it's all about
Thuggin', we only thuggin' when the boys come out
It's us over here, fuck the other side
We gonna turn the lights off, we hide
What we doin', don't nobody gotta know
Ain't tryna get ghost
Oh, yeah, ooh, oh, ooh, oh It's just us against the world

In this life of sin
Ain't nobody gonna take us out
It's always us, never them
It's just us against the world
When the smoke clears
All we got is all we got
It's always us, never them
