Faith

Jordin Sparks

Hey there sad eyes
What's on your mind
Don't look so down
Give it sometime
You don't have to be
So hard on yourself
I know the world can be a brutal place
Please don't let it steal your smile awayCause when the sky's the darkest
You can see the stars
And when you fall the hardest
You find how strong you are
Close your eyes
Rest awhile
It's been a long long day
So come on baby baby
Have a little faith
Let those tears fall
You gave it your all
It's all you can do
I'll be here for you
And there goes your pride
Cruhed on the ground
Sometimes it takes a wall to tumble down
For you to see who's gonna stick aroundCause when the sky's the darkest
You can see the stars
And when you fall the hardest
You find how strong you are
Close your eyes
Rest awhile
It's been a long long day
So come on baby baby
Have a little faith
Sometimes it gets worse before it gets better (yeah)
And it takes so much to be brave
Sometimes you're afraid it will hurts forever
But when all the lights begin to fadeAnd when the sky's the darkest
You can see the stars
And when you fall the hardest
You find how strong you are
Close your eyes
Rest awhile
It's been a long long day

So come on baby baby
Come on baby baby
And have a little faith
Have a little faith
Oohh oh oohh
Come on baby baby
Have a little faith
