

# This Ain't the Way (feat. Tori Kelly)

## Jeremy Passion

Stepped off the peak of a good time  
Right back to the valley of a bad rhyme  
All these ups and downs, can we turn around  
And stay high  
High above the sky? But gravity...  
Sometimes it feels good  
Sometimes it don't  
Then at times, it's visible  
Sometimes less shown  
Gotta work this out no other way around  
We're both grown  
You and I, baby you and I  
Darlin' take my hand  
Realize we're on the same team  
Try to understand that I'm not your enemy  
Let's work it out  
Give and take or  
Agree to disagree cuz  
This ain't the way love supposed to be Just the other day, we were doin' fine  
Even on a rainy day we had sunshine  
But just like a hat, you snapped back  
You changed your mind  
Ooo boy, tell me why you gotta this all the time?  
You say I got alot of fire? Well you're cold as ice  
If people only knew that you are not always nice  
Bite your tongue, watch your tone  
Think before you speak cause  
You gotta know what this woman needs  
Darling take my hand  
Realize were on the same team  
try to understand that I'm not your enemy  
Let's work it out  
Give and take or  
Agree to disagree cuz  
This ain't the way love supposed to be It ain't hard to see we need a change  
Cuz we know our love is not the same  
Baby, this ain't a riddle  
Gotta meet in the middle  
This time (Ba Ba Bas) Let's work it out  
Give and take  
Agree to disagree cause  
this ain't the way babe

this ain't the way love supposed to be We gotta work this out oh  
Communicate with me  
Darling can't you see  
this ain't the way babe It ain't hard to see, we need a change  
cause we know our love, is not the same  
this ain't the middle  
gotta meet in the middle
