

Welcome Back (feat. Alessia Cara)

Ali Gatie

Welcome back
How long do you plan to stay?
It's been a while I've missed that smile on your face
You're in and out
But you're not easily replaced
Welcome back
Welcome back The things you're sayin' to me really weighin' heavy
The conversations that we have are really empty
I miss the person that I was when we started
Wish you would tell me what you wanted If you wanna talk, we could talk, yeah
You can say a little or a lot, yeah
I've been keepin' doors unlocked
Just hopin' you will walk back in
Welcome back
How long do you plan to stay?
It's been a while
I've missed that smile on your face
You're in and out
But you're not easily replaced
Welcome back
Welcome back Tell me what's a new page if I can't take you with me?
And I'll give you space but I still hope you're listenin'
Ears pressed to the other side of the wall
Do you wish you did when you almost called? Can we talk? Yeah
You can say a little or a lot, yeah
I've been keepin' doors unlocked
Just hopin' you would walk back in, yeah
Welcome back (welcome back)
How long do you plan to stay?
It's been a while (been a while)
I've missed that smile on your face
You're in and out
But you're not easily replaced
Welcome back (welcome back)
Welcome back (welcome back)
Welcome back Feels like you were never gone, I'm glad you're back
Even if it's not for long, I'm okay with that
If it doesn't last
At least we had the time that we had Welcome back
How long do you plan to stay?
It's been a while
I've missed that smile on your face

You're in and out
But you're not easily replaced
Welcome back
Welcome back, yeah (welcome back, yeah)
