

Closure

Adna

Ooh, ooh
I don't even know what I need, all I want is before
Will I know the end when I need it?
How can nothing make me feel like something will break, explode?
Smother the voices in my headOoh, ooh
From [?:] I'm choosing my scars, oh
Will I know love when I need it?
How in my mind darkness, putting me to sleep
Smother the voices in my headClosure, closure
Are you somewhere else now?
Closure, closure
(Closure)Are you somewhere else now?
Are you somewhere else now?
