

# Zombie Bastards

## Weezer

[Intro]

Die, die, you zombie bastards

We know what you want

"You know they're out there, don't you?" [Verse 1]

Welcome to the jungle, to the jungle

Baby, it's you and me

Walk between the raindrops, 'tween the raindrops

Singing along to Queen

My heart pumps Kool-Aid

Everybody's playin' it safe, la-dee-da

Dig a little deeper, a little bit deeper

Baby, it's you and me

[Pre-Chorus]

That's right

Music saved my life

Wild eyes

We don't have much time [Chorus]

Die, die, you zombie bastards

We know what you want (get it up, get it up, no)

Die, die, you zombie bastards

Keep on, blah, blah, blah

We can go up (hey!), we go down (hey!)

We gon' run you out of town

We can go up (hey!), we go down (hey!)

We'll be seein' you around, yeah

Die, die, you zombie bastards

[Verse 2]

I don't know karate or kung fu

But I'm gonna make it in this world

Won't be pumping diesel for mean people

I'ma fight back with words

Listen to reason

Or we'll get cast out of Egypt, la-dee-da

I'm just tryna live and get my kicks

And you gotta be human first [Pre-Chorus]

That's right

Music saved my life

Wild eyes

We don't have much time [Chorus]

Die, die, you zombie bastards

We know what you want (get it up, get it up, no)

Die, die, you zombie bastards

Keep on, blah, blah, blah  
We can go up (hey!), we go down (hey!)  
We gon' run you out of town  
We can go up (hey!), we go down (hey!)  
We'll be seein' you around, yeah  
Die, die, you zombie bastards[Bridge]  
If I die, it means that I lived my life  
And that's much better than hidin' in a hole  
Die, die, you zombie bastards[Chorus]  
Die, die, you zombie bastards  
We know what you want (get it up, get it up, no)  
Die, die, you zombie bastards  
Keep on, blah, blah, blah  
We can go up (hey!), we go down (hey!)  
We gon' run you out of town  
We can go up (hey!), we go down (hey!)  
We'll be seein' you around, yeah  
Die, die, you zombie bastards
