

# Suffering (Jacob Hemphill (SOJA) [Remix)

## Rebelution

Go on sit back and relax and get comfortable  
Oh ya sit back and relax and get comfortable  
    Now close your eyes  
    Now make it right  
    Don't point your finger at me  
Don't you know it's you why you're suffering  
    You're why you're suffering  
    I've got my mind set at ease  
Don't you know it's you why you're suffering  
    You're why you're suffering  
    I've got my reasons to live  
Don't you know it's you why you're suffering  
    You're why you're suffering  
    I've got my mind set at ease  
Don't you know, it's you why you're suffering  
    You're why you're suffering  
Go on sit back and relax and get comfortable  
Yes sit back and relax and get comfortable  
    Now close your eyes  
    Now make it right
