

James Joint

Rihanna

I'd rather be smoking weed whenever we breathe
Everytime you kiss me
Don't say that you miss me
Just come get me Don't know why, just know I want to
Don't know why, just know I want you I'd rather be breaking things 'cause we can't see
We're too busy kissing
Just making scenes, here come the police
They know about your history
How you live and love like "fuck rules"?
Don't care why, just know I love you
