Sideways (feat. Lecrae)

KB

Sideways, came in this thing sideways
Get turnt, get lit sideways
Haters looking at me sideways
Sideways, sideways
I ain't slept in like 9 days
Heard they be talking sideways

Leaning in this thing sideways, sideways They wanna see your boy Kevin wear (down)

Hope the worst when they tell me go and break a leg

This music with or without me boy

Still gonna be intersecting circles like an Audi boy (Sideways)

Feeling like I'm ballin' boy

Reading James can't let my heart harden boy Don't need a side chick the main dish a problem boy

I be turning down girls like the volume boy (Sideways)

Do what we wanna do

Truth and the fruit, who really wanna juice Move with a humble few these dudes who befuddle you

Derek Jeter boy, we cool being number 2

Dem sons of the Father

Beast all four quarters won't change for a dollar

I put it on my momma

I ain't got no worries like hakuna matata

Sideways, came in this thing sideways

Get turnt, get lit sideways

Haters looking at me sideways

Sideways, sideways

I ain't slept in like 9 days

Heard they be talking sideways

Leaning in this thing sideways, sidewaysThe Lion King said D-I-E

Then brought us back to life like an E-M-T

No Biggie to me that you could do it B-I-G

Till you and God align like a D-M-V

You rappers are neon green

Yukon Denali wanna be G-MC's

But overdose on Christ see a G-OD

G-O-D that's what you see on me (Now turn up)

They know when we pull up

Where they working them traps like a pull up

So we bring them trap and a full cup (full cup) of water that's livin'

They don't know what to do with us

Degree in theology raps for a livin'

Black man in first class that is reading the scriptures

I put my tray table up
Smile why they lookin' sideways?
Sideways, came in this thing sideways
Get turnt, get lit sideways
Haters looking at me sideways
Sideways, sideways
I ain't slept in like 9 days

Heard they be talking sideways

Leaning in this thing sideways, sidewaysSideways, came in this thing sideways

Get turnt, get lit sideways

Haters looking at me sideways

Sideways, sideways

I ain't slept in like 9 days

Heard they be talking sideways

Leaning in this thing sideways, sidewaysOoooooooh

I promise you

You better come tell 'em (tell 'em)

I ain't the one

I never was, I never will be

Somebody better come get 'em

I wonder what they got in they head

Wonder what got in they mind (mind)

They got me mixed up, messed up

Click hold on it's somebody on the line

(Hello, uh)

I ain't tryin' to build C-H-H

I'm in my own lane but they like he ain't safe
They rappin' in a bubble can't nobody see their face
I ain't worried 'bout the genre the street ain't safe

I know some people out there probably envy my space

But envy is empty, come see my face

Full of scars, full of pain

I don't see much grace

Street fighter Ryu catchin' heat all day

I'm good

And lately I've been hangin' in the hood

Everybody lookin' like what

You for the people, you pushin' back evil

Not just in the steeple, you out in the woods

Where the lions and the wolves at?

Still waters run deep, but my crew run deeper

We already died we ain't scared of the reaper

We are too alive we don't fear what you're speaking

Seeing sideways eyesight crooked

You ain't never seen us cause you ain't lookin'

And if I say Jesus everybody start bookin'

Get out the kitchen when I'm cookin'

Pot sideways, Whipping that whipping that bass

That's what they wanna hear us say

Until we all get caught selling twenty dollar rocks
And we're just another slave of the state
Seeing sideways!Sideways, came in this thing sideways

Get turnt, get lit sideways Haters looking at me sideways Sideways, sideways I ain't slept in like 9 days Heard they be talking sideways

Leaning in this thing sideways, sidewaysSideways, came in this thing sideways

Get turnt, get lit sideways Haters looking at me sideways

Sideways, sideways

I ain't slept in like 9 days

Heard they be talking sideways

Leaning in this thing sideways, sidewaysWait, wait
