

Stand Still

Sabrina Claudio

Time stands still
While we stand here
Don't wanna fight you
I need the same as you I want trust too
I want us too
I want lust too
I want lust too
I want love too
I want this too
I want in you
Time is being wasted screaming
Not listen I promise you'll heal me better
You're so unaware about the feeling
The same thing, the same damn thing Time is standing still
And why are we still here
I don't wanna fight you
I'm needing the same as you
I want trust too
I want us too
I want lust too
I want lust too
I want love too
I want this too
I want in you
