

True

Digital Farm Animals

My love
She's everywhere
Her touch
Is all I need
My love
Won't let me down
oh
My friend
She's all I have
Her sence
Is everything
Well, My friend
Won't let me down
She don't care if I'm not always looking like I should
She don't make a fool of me, we just keep it good
She don't care if I'm not always looking like I should
She don't make a fool of me, fool of me.
Everything I do Is for you
Your the only one that matters even If your not around
Its true
Oh its true
No one else compares to you.
Everything I do Is for you
Your the only one that matters even If your not around
Its true
Oh its true
No one else compares to you.
Everything I do My love
She's everywhere
Her sence is everything
Well, My friend
Won't let me down
She don't care if I'm not always looking like I should
She don't make a fool of me, we just keep it good
She don't care if I'm not always looking like I should
She don't make a fool of me, fool of me.
Everything I do Is for you
Your the only one that matters even If your not around
Its true
Oh its true
No one else compares to you.
Everything I do Is for you

Your the only one that matters even If your not around
Its true
Oh its true
No one else compares to you.
Everything I do
