

# Dear Old Sun

Miranda Lambert

Dear old sun  
How you holdin' up?  
Through the winter cold  
Up there all alone  
February's been hard on a heart  
But we're near the end  
And it's almost March  
Though the sky's been grey  
And in our way I still see your light Well, you melt the snow  
And you grow the roses  
And you dry the tears  
And you freckle noses  
Our little world  
Revolves around  
You coming up and going down  
Oooooo, Oooooo, Oooooo Dear old sun  
Let's call it a day  
And I'll watch you set  
I'll let you rest  
But wait for you  
Like morning's dew  
'Til I see your light Oooooo, Oooooo, Oooooo I still see your light  
I still see your light  
Heaven shining down tonight  
I still see your light  
I still see your light  
I still see your light  
Heaven shining down tonight  
I still see your light Oooooo, Oooooo
