

# Control Freak (feat. Blaqstarr & Kay)

Steve Aoki

Control Me  
Control me, can you control me? x2  
All of a sudden she arrives in my mind in my hindsight  
She whispers all this time I've been gone  
She say she can't sleep the night without me. You've got my body, playing me out of my mind  
sometimes, get on x2  
Get On (Control freak)  
Baby I've got the feeling that you want me  
Maybe I love your swagger but you're such a cheat  
Don't even know you, you  
I can't stop thinking about you  
And all the things we could do  
Tell me to stop, tell me to move  
Baby, we've got nothing to lose. You've got my body, playing me out of my mind sometimes,  
get on x2 Control freak  
Baby I've got the feeling that you want me  
Maybe I love your swagger but you're such a cheat  
Don't even know you, you, you  
But I got to, gotta know you and all of what you're into  
Tripping and skipping these records for the sound fool  
Wanna bring out the freak in you Control Me, can you control me  
Control Me, can you, can you, you, you  
Control freak  
Baby I've got the feeling that you want me  
Maybe I love your swagger but you're such a cheat  
Don't even know you, you, you  
But I got to, gotta know you and all of what you're into  
Tripping and skipping these records for the sound fool  
Wanna bring out the freak in you
