## Lupe Fiasco

Wade with us, baptize and convert to the waves with us  
I tuned into what the future holds I could never be a slave, niggas  
They gon' have to pay me, Navy, downloaded by the tidals like Jay-Z  
That's a roll offshore like an A.P., Davy  
Jones' locker on top of those hoppers off the side of the ship  
Suicide, didn't die from the dip,  
submarine man, keep your eyes on the blips  
Sonar, echo, location,  
and where we are facin', get back to our nation, oh Lord  
So we walkin' back to Africa and I found a detour to the seashore  
Yes, jumped off the deck,  
to leave footsteps on the depths of the sea floor, ayy  
My bones is where the beach is white  
Where the beach is white, 'cause they bleached us light  
So I'm goin' back home, I took a leap last night  
So I'm walkin' on water 'til my feet just like Jesus Christ  
Wow, walkin' on water, wow, wow, walkin' on water  
Wow, wow, walkin' on water, wow, wow, walkin' on water, ayy  
My bones is where the beach is white  
Where the beach is white, 'cause they bleached us light

So I'm walkin' on water 'til my feet just like Jesus Christ  
Walkin' on water, wow, wow  
Walkin' on water, wow, wow (yeah), walkin' on water, ayy  
Dive with us, vibe with us  
Imbibe with the tide, sea salty 'cause it cry with us  
When we looked it in the eyes, like how could you help her?  
But sigh and apologize and said that I'm sorry, we're shelter  
Y'all can live down here forever, drownin' and severed  
From all your lungs and the lungs of your sons  
Tell your daughters the water's a treasure  
Summon the forest, talkin' the trees  
Like how could you be in the chorus with something so horrid?  
You became boards for the floors and the doors of the warships  
Anthropomorphic, the forest returned with a match  
Made from itself and said, "Burn us with that"  
Then left again and came back with an axe  
We can serve you as furniture or furnace us black  
My bones is where the beach is white  
Where the beach is white, 'cause they bleached us light  
So I'm goin' back home, I took a leap last night  
So I'm walkin' on water 'til my feet just like Jesus Christ

 Walkin' on water, wow, wow  
 Walkin' on water, wow, wow, walkin' on water, ayy Yeah, rise with us  
 From out the sevens to the Heavens in the skies in us  
 Conversations with the constellations  
 Why you navigate the haters  
 Black baby alligator baiters  
 Supposed to do greater, with all of your alphas and betas  
 And minors and majors

You were so busy just tryin' to shine  
 You shoulda been tryin' to save us  
 Star said, excuse our behavior  
 We will be indebted to you for all of eternity  
 If you cancelled your heart and forgave us  
 Remove all our favors  
 From childrens of sailors and slavers  
 Repay you with acres  
 But here in the heavens where harvest is greater  
 A meager inheritance, pardon our arrogance  
 Those with Americans, guide them to places much safer, ayy" My bones is where the beach is
