

Cracks (Firebeatz Remix)

Freestylers & Belle Humble

Leave the past behind, just walk away
When it's over, and the heart break
And the cracks begin to show And the cracks begin to show Leave the past behind, just walk
away
When it's over, and the heart break
And the cracks begin to show
Begin to show Leave the past behind
Begin to show
Leave the past behind, walk away
When it's over, and the heart break
And the cracks begin to show Leave the past behind, just walk away
When it's over, and the heartbreak
And the cracks begin to show And the cracks begin to show Leave the past behind, just walk
away
When it's over, and the heart break
And the cracks begin to show
Begin to show
Leave the past behind
Begin to show Leave the past behind, just walk away
When it's over, and the heart break
And the cracks begin to show
