

# Scene Two - Roger Rabbit

## Sleeping With Sirens

Is there a right way for how this goes  
You got your friends  
And you got your foes  
They want a piece of something hot  
Forget your name like they forgot  
Ohh, ain't that something  
Someone will see you crash and burn  
Criticize your every word  
I'm trying to keep from going insane  
Ain't that the way of this whole damn thing.  
Ohh, trying to be something... more.  
Nobody's gonna love you if  
You can't display a way to capture this.  
Nobody's gonna hold your hand  
And guide you through  
No it's up for you to understand.  
Nobody's gonna feel your pain  
When all is done  
And it's time for you to walk away.  
So when you have today  
You should say all that you have to say.  
Ohh, say all that you have to say  
Is there a right way for being strong  
Feels like I'm doing things all wrong  
Still I'm here just holding on  
Confess my heart and forgive my wrongs.  
Just trying to show you something... more.  
Nobody's gonna love you if  
You can't display a way to capture this.  
Nobody's gonna hold your hand  
And guide you through  
It's up for you to understand.  
Nobody's gonna feel your pain  
When all is done  
And it's time for you to walk away.  
When you have today  
You should say all that you have to say.  
Don't point the blame when you can't find nothing  
Look to yourself and you might find something  
It's time that we sorted out  
All of the things  
We complain about.

So listen close to the sound of your soul  
Take back a life  
We led once before  
If it ain't you then who  
If it ain't you  
Then who's gonna love you.  
Nobody's gonna love you if  
You can't display a way to capture this.  
Nobody's gonna hold your hand  
And guide you through  
It's up for you to understand.  
Nobody's gonna feel your pain  
When all is done  
And it's time for you to walk away.  
When you have today  
You should say all that you have to say.  
So when you have today  
Say all that you have to say.
