

Police Dog Blues

Hugh Laurie

All my life I've been a travellin' man
All my life I've been a travellin' man
Stayin' alone, doing the best I can
I hauled my trunk down to Tennessee I hauled my trunk down to Tennessee
It's hard to tell 'bout a man like me
I met a girl, I couldn't get her off my mind
I met a girl, I couldn't get her off my mind She passed me up saying she didn't like my kind
I was scared to bother 'round her house that night
I was scared to bother 'round her house that night
She's got a police dog and he's boiling for a fight His name is Rambler and when he gets the
chance
His name is Rambler and when he gets the chance
He leaves his mark on everybody's pants
Yes, I think I'll travel, I think I'll let her be
I think I'll travel
I think I'll let her be
Before she sets that police dog on me
Before she sets that doggone dog on me
