

# Wanna Be

## Betty Who

It's a long, cold walk after midnight  
When you send me home  
'Cause she comes 'round late, and she hates it  
When we're left alone  
She's beautiful, and I just can't compete  
But I'd ride with you, die with you  
I'd spend my life with you  
Stuck with me, fuck with me  
So come make love to me  
I know she's sweet, but she isn't me  
Where she lies in your eyes  
That's where I wanna be  
When a stranger says  
We look good together, we just laugh  
If you only knew how it hurts  
'Cause you're my other half  
This nightmare has become  
My favorite dream (favorite dream)  
'Cause I'm standing in  
For a love that is the real thing  
You know I need you 'Cause I'd ride with you, die with you  
I'd spend my life with you  
Stuck with me, fuck with me  
So come make love to me  
I know she's sweet, but she isn't me  
Where she lies in your eyes  
That's where I wanna be  
That's where I wanna be  
On the side of the bed where she sleeps  
Driving home with your hand on my knee  
Not the one that you want, but the only one you need  
That's where I wanna be  
Ride with you, die with you  
I'd spend my life with you  
Stuck with me, fuck with me  
So come make love to me  
I know she's sweet, but she isn't me  
Where she lies in your eyes  
That's where I wanna be  
Ride with you, die with you  
I'd spend my life with you  
Stuck with me, fuck with me  
So come make love to me  
I know she's sweet, but she isn't me  
Where she lies in your eyes

That's where I wanna be  
That's where I wanna be  
That's where I wanna be  
That's where I wanna be  
That's where I wanna be
