

Only Getting Younger (feat. Skrillex)

Elliphant

While your skin go wrinkle, we only getting younger
We ride into a peek, we can't take this shit no longer
Main our mind a lover man a body go weak
I got my bloody truth, I got my BAS crew with me
Walk around with bloody hands, I saw you lick it off
We gon' keep them dirty just to prove a point
Keep it dirty it's for truth that my crew hunger
What, so fuck tomorrow, we only getting younger
All universe implode in me, up or down in and out no matter GN
Now stop falling, I smell like a fox
Coloring, questioning a blank answer box
Trip on trigger true, twist a tune trick a dumb
Fresh like a fungus smelling shit, smelling numb
We born together, together we keep struggle
So fuck tomorrow we only getting younger
Fuck tomorrow we only getting younger
You to follow, we are here to rumble
Grab a hand, take things too long
Drag shit to its fullest, blow me right from wrong
Stand tall, free I fall, your call is my ball
Now yours, close them doors get blown by a force
Of truth missing youth, fuck the shows Skrillex, haha
Loose the goose man! Fuck it!
Walk around with bloody hands, I saw you lick it off
We gon' keep them dirty just to prove a point
Main our mind a lover man a body go weak
I got my bloody truth I got my BAS crew with me
I got my, I got my, I got my
Me and my bitches, me and my dogs
Dandelion war keep digging streets for gold
Feeling kind of tense I need a cup of whiskey
My glass is overfull be careful when you pass me
We dominate this corner with my BAS family
Overtake this blocker with my boom energy
Born to be a rocker gotta grow with us
Acting like a sucker, suck it up, suck it all
Walk around with bloody hands, I saw you lick it off
We gon' keep them dirty just to prove a point
Main our mind a lover man a body go weak
I got my bloody truth I got my BAS crew with me
I got my, I got my, I got my
So fuck tomorrow we only getting younger
