

Dope Bitch Skit

Rick Ross

I love a Daytona rose gold Rolex, the black face, a good Fendi fur, some Tom Ford thigh high's and a crocodile Birkin. I'm set. I'm not basic right here

Not basic? (Not basic)

Nah, no basic bitches allowed

Why? What they do?

Basic bitches make me nervous. Yes. They make me nervous. You wanna impress? Here, I'm gon' show you. If you're a boss, this stack right here falls out of your pocket, you don't even got time to pick it up. (You keep walking) You don't got time. You keep going. It's probably not worth your time. (Your minutes cost more than the stack.) Keep it moving. (Alrht.) Keep it fresh. (Keep it fresh. Keep it money, baby. All day.) It's our money dance. I have my basic bitches pick up my money for me. I pay my basic bitches to pick up my money for me

Alright, that's cool

I tell 'em keep it. Buy something nice. I heard Raven's having a sale. Yes. You know the real boss bitches though? Call up George Condo. Make me a fucking one of a kind

One of one's?

One of one's

How much was it?

Priceless, baby

Priceless. So what's a typical shopping day for ya'll? How much? Like on a tab?

Typical shopping -- it's never typical with me

That day you -- that day you go-

It depends on what kind of mood I'm in that day

You're in the mood to shop

I'm in the mood to shop?

Right

Can't put a price on it

She doesn't wanna make you nervous

I don't wanna make you nervous, baby. I don't wanna make you nervous

I don't think you can. I ain't been nervous in a minute, in a while

You sure? You're not nervous right now?

Do I look nervous? I'm relaxed

Yeah?

I'm so relaxed. I'm probably too relaxed

You're relaxed

Yeah

Let's make him a little nervous

How are we gonna make you nervous?

Give him my number

I don't think you can

You sure? My shoes don't make you nervous?

Not at all

Are you sure? My wrists?

That's a nice wrist
How about my earrings? They make you nervous?
Nah
Nah? My weave make you nervous?
You wanna know what basic bitches do? They wash their hair with shampoo. You know what
we wash our hair with?
I wash my hair with fucking champagne, baby. (All day) Champagne. (All day)
I hope it's Belaire Rosé
I bathe in Belaire Rosé. I have people wash me in Belaire Rosé. People fucking throw rose
petals at me when I walk by. They throw Belaire Rosé
Why they do that?
I'm a fucking boss. Ugh. Was that good? How was that? Ugh. I can't take life. Was that great?
But there really is a lot of money on the floor. What is that?
