

Too Long

Daft Punk

It's been much too long, I feel it coming on
The feelings getting strong
It's been much too long, I feel it coming on
The feelings is in my bones To Long, can you feel it, too long, oh can you feel it
To Long, can you feel it, too long, oh can you feel it At last the long wait is over
The weight is off my shoulder
I'm taking all control
My mind is set so free
I'm where I want to be
To get the best of me To Long, can you feel it, too long, oh can you feel it
To Long, can you feel it, too long, oh can you feel it
I see, you feel the way I do, the feeling all so true
The good feelings coming thru
My mind is set so free
I'm where I want to be, to get the best of me To Long, can you feel it, too long, oh can you feel it
To Long, can you feel it, too long, oh can you feel it It's been much too long, I feel it coming on
The feelings getting strong
It's been much too long, I feel it coming on
The feelings is in my bones To Long, can you feel it, too long, oh can you feel it
To Long, can you feel it, too long, oh can you feel it At last the long wait is over
The weight is off my shoulder
I'm taking all control
My mind is set so free
I'm where I want to be
To get the best of me
To Long, can you feel it, too long, oh can you feel it
To Long, can you feel it, too long, oh can you feel it You know you need it, I need it to
You know you need it, it's good for you
We're gonna move
You know you need it, I need it to
You know you need it It's good for you
