

With You (feat. Kina Grannis)

I Fight Dragons

You say
Look outside
Rain is pouring down
Let's stay and hide I say
What the hell?
We've got things to do
But we might as well
Stay and rebel
Maybe we will be everything we say
Maybe all that we dream will fade to gray
Either way
I will stay
With you They say
Pay your bills
Earn your daily bread
Take all your pills We say
Look around
At the heart of things
Share what you found
Stand your ground
Maybe we will be everything we say
Maybe all that we dream will fade to gray
Either way
I will stay
With you
