

Euphoria

Xandria

Serpent angel rape me
Serpent venom in me Oh Euphoria, our goddess you are
Take the burden away to live in this hell
Say goodbye to the dreams, destroyed fantasies
Bitter nightfall at hand, will cover the land Forces come - silent
Cross your mind - blinding
Anaesthetize - senses
Steal them all away Caress you - grievous
Infest you - with lust
Ending soon - chaos
Servant life is waiting
Consume the drugs we sell to you
Keep you begging for more
And soon you will forget
The world you were longing for Childish dreams - sinful
I have seen - passion
Fearlessly - chainless
All this hope is forever lost Oh Euphoria, our goddess you are
Take the burden away to live in this hell
Say goodbye to the dreams, destroyed fantasies
Bitter nightfall at hand, will cover the land Neverworld's End We sell you a false dream for your
own
So we can control your fantasies
There's no hideaway this world is ours
Give in to our plastic paradise
Endlessly travelling the plains of my dream
Slowly it's fading in my memory
Oh Euphoria, our goddess you are
Take the burden away to live in this hell
Say goodbye to the dreams, destroyed fantasies
Bitter nightfall at hand, will cover the land
Oh Euphoria, sweet lies that you are
Let the child fade away, just memories stay
Oh Chimaria, predacious heart
Take our souls with you, Forever repent
Neverworld's End
