

# Sunburn

## Fuel

The sky was dark this morning  
Not a bird in the trees  
And silence hung suspicious and anxious  
Like a blanket covered scream  
And you were gone  
You were not there for me  
And I cursed the sky and begged the sun to  
Fall all over me  
This life's not livin', baby  
Livin' ain't free  
If I can't find my way back to me  
Let the sun fall down over me  
Let the sun fall down  
All my friends are searching  
Quiet, desperately  
Look into their eyes you'll see the faithless crying  
Save me, save me, save me  
And what are they to feel  
And who are they to be  
And what am I to do with, do with me, just let the sun  
Fall all over me  
This life's not livin', baby  
Livin' ain't free  
If I can't find my way back to me  
Let the sun fall down over me  
Let the sun fall down  
Until my eyes cry out  
'Til my head is free from doubt  
'Til my lungs sigh right out  
'Til I'm wiser  
Let the sun  
Fall all over me  
This life's not livin', baby  
Livin' ain't free  
If I can't find my way back to me  
Let the sun fall down  
Let the sun fall over me  
This life's not for livin', baby  
Livin' ain't free  
And if I can't find my way back to me,  
Let the sun fall down over me  
Let the sun fall down over me

Let the sun fall down over me  
Let the sun fall down... over me
