

Don't Let Me Stop You

Kelly Clarkson

I used to be a little bit shy
I kept my deepest feelings inside
Speaking up to you about my emotions has always been hard
But this just can't wait
Tonight I feel a little bit brave
So I won't let one more day pass without you explaining what we are
This is gonna sound kind of silly
But I couldn't help but notice
The last time you kissed me
You kept both eyes open
Baby, can you tell me what does that mean?
If you're looking all over your shoulder
Then you don't need to be with me
And I don't need to hold on
Don't let me let me stop you
From doing what you wanna do
You don't wanna stick just me it's cool
Take no chance getting over you
No no don't let me let me stop you
If you wanna leave baby you can leave
Just don't pretend that you're into me
If it ain't true no, don't let me stop you
A lot of things I can take
Got a high threshold for pain
But let's get one thing straight, I'm not down to share you with anyone
If that's not what you're looking for
Nice knowing you, but there's the door
'Cause I know that I can find someone who'll give me what I want
This is gonna sound kind of silly
If you're looking over your shoulder
Then you don't need to be with me
And I don't need to hold on
Don't let me let me stop you
From doing what you wanna do
You don't wanna stick just me it's cool
Take no chance getting over you
No no don't let me let me stop you
If you wanna leave baby you can leave
Just don't pretend that you're into me
If it ain't true no, don't let me stop you
Even if I'm in the brokenhearted
I won't lie
I don't wanna hear goodbye
But either way I'll be alright
Don't let me let me stop you

From doing what you wanna do
You don't wanna stick just me it's cool
Take no chance getting over you
No no don't let me let me stop you
If you wanna leave baby you can leave
Just don't pretend that you're into me
If it ain't true no, don't let me stop you
Don't let me let me stop you
From doing what you wanna do
You don't wanna stick just me it's cool
Take no chance getting over you
No no don't let me let me stop you
If you wanna leave baby you can leave
Just don't pretend that you're into me
If it ain't true no, don't let me stop you
