

# Me on You

Morgan Evans

Feels like these plans are made just for us tonight  
Waiting for us tonight  
Feels like your hands are made just for mine tonight  
Yeah, you're all mine tonight, oh The way you love me is  
Better than the buzz that I get from drinking  
Higher than the high that a drug can do  
The kinda flying, falling feeling  
Ain't got nothing on me on you  
Could be standing on the highest mountain  
Staring at a sunset ocean view  
I'd just be thinking about how  
They ain't got nothing on me on you  
Heart to heart, baby  
I know where to start, baby  
Staying in the dark, baby  
Me on you The way your body's catching light from the moon  
Can't take my eyes off of you, no, no  
It's so perfect that I don't wanna move  
Oh but girl, when you move, oh  
The way you love me is better The way you love me is  
Better than the buzz that I get from drinking  
Higher than the high that a drug can do  
The kinda flying, falling feeling  
Ain't got nothing on me on you  
Could be standing on the highest mountain  
Staring at a sunset ocean view  
I'd just be thinking about how  
They ain't got nothing on me on you  
Heart to heart, baby  
I know where to start, baby  
Staying in the dark, baby  
Me on you Yeah, you're telling me nothing  
Showing me something  
Gimme that look that you can't take back  
Reading your lipstick, killing me with it  
When you hit me like that it's  
Better than the buzz that I get from drinking  
Higher than the high that a drug can do  
I'm talking 'bout me on you Could be standing on the highest mountain  
Staring at a sunset ocean view  
I'd just be thinking 'bout how  
They ain't got nothing on me on you Heart to heart, baby

I know where to start, baby  
Staying in the dark, baby  
Me on youMe on you  
Me on you
